Code Submission - Submit your final project by uploading your project files and folders to the bit bucket repository, Deadline December 7th 9.00 AM. (35% % of your project points).

****If your project does not compile and/or did not produce the necessay result that you claim to produce during your demo, then there will be no points awarded to the final project. (10% of your final grade)

Presentation - By the presentation session during our final lab session December 7th 1.30 to 3.20 PM, you should have finished all your implementation. In the presentation, you should describe what you have achieved with your project during the semester. The goal of the presentation is to convey the important ideas and a formal specification of everything you did. Prepare for a 15 minute presentation. Design at least 5-8 slides, including a slide with the title of your project and group members. Every member of the group needs to contribute to the presentation talk. Also, you need to show a demo at the end of the presentation of your system. (30% of your project points.)

Final Report – 3-5 pages, Deadline December 14th 5.00 PM.
Incorporate any feedback from the presentation session (if applicable). Your final report should be clear and well written, which includes no typos or grammatical errors. The writing will be graded more harshly here. Your report should be written in a professional and technical manner. (35% % of your project points)

*** Final Exam is on December 14th 7.00 PM.
